SUBJECT INDEX TO VOLUME 17

Notes: All notices for conferences, symposia, and meetings are under one heading: ANNOUNCEMENTS

Aarskog's syndrome with Hirschsprung's disease, midgut malrotation, and dental anomalies: case report 235
Adrenal hypoplasia, congenital, linkage to HLA system 337
Alkaline phosphatase activity of normal and cystic fibrosis fibroblasts 187
Amniocentesis in the West Midlands: report on 1000 births 81
Amniotic fluid
  bloody, culture for chromosome analysis: improved method: technical note 388
  cells, cryopreservative procedure for storing cultivated and uncultivated, in liquid nitrogen 472
Anencephaly,
  cause: correspondence 491
  concordance rates in twins for 93
  risk of recurrence after 2 children with, in high incidence area 87
  and spina bifida, family study, Belfast (1964–1968) 203
Angiokeratoma corporis diffusum with features of a mucopolysaccharidosis 21
Aniridia gene, probable case of homozygous condition: case report 478
ANNOUNCEMENTS
  Dwight J Ingle Memorial Award, announcement 155
  Genetics in clinical oncology, course, September 1980, New York 244
  International Congress for Human Genetics, 6th, Jerusalem, September, 1981 155
  International Symposium on Circumpolar Health, 5th, Copenhagen, 9–13 August, 1981 244
  Marie Stopes Research Fund, applications for support of research 492
  Prenatal diagnosis, First International Symposium, Bologna, September 1980, announcement 328
  Standing Committee of Human Cytogenetic Nomenclature, call for nomination 408
  Standing Committee on Nomenclature for high resolution banding of human chromosomes 328
Anorexia nervosa and yellow mutant albinism, concurrence: case report 68
Antigen, HLA Bw35, and human reproduction: correspondence 157
Antiproteases and Down's syndrome, Australia 170
α_1-antitrypsin phenotypes and Down's syndrome, Australia 170
Aplasia cutis congenita, recessive, of the limbs 123
Atrophic rhinitis, primary, dominant inheritance in family with 39

Banding, simultaneous G and C, for human chromosomes: correspondence 72
Bladder exstrophy, family study 139

  translocation, X;3, with gonadal dysgensis 216
  X;Y translocation in an adolescent mentally normal phenotypic male with hypogonadism 437
  mosaicism 45,X/46,XY/47,XY,+21 in hypogonadal phenotypic male: case report 319
  45,X/46,X,r(X), X ring segregation in two generations 306
  46,X,Xt(qter→p221::p223→qter) with gonadal dysgenesis, clinical and cytogenetic studies 457

46,XX,2p+, associated with agenesis of lung: case report 477
46,XY/47,XY,+r, with agenesis of corpus callosum: case report 59
47,Xi(Xq)Y karyotype in Klinefelter's syndrome: case report 152
47,XXX in a male: case report 62
47,XY, monosomy 22, + two marker chromosomes, M1 and M2, (partial trisomy 22): case report 66
49,XXXXX in child: case report 392
49,XXXY,+18, liveborn case: case report 389
Y, de novo non-fluorescent, prenatal diagnosis: case report 314
sequential staining of euchromatic and heterochromatic regions 468
Y and partial X duplication, female phenotype and multiple abnormalities, H–Y antigen and Xg blood group findings 291
Chromosomes, Group A
1, interstitial deletion in long arms, 46,XY,del(1)(pter→q22::q25→qter): case report 483
47,XY,+der(15),t(3;15)(p25;q11)pat presenting as partial 3p trisomy syndrome with multiple joint contractures: case report 396
Chromosomes, Group B
4, ring, neurological and neuropathological: case report 487
5, interstitial deletion of long arm, deformed boy 46,XY,del(5)(q13q15): case report 486
Chromosomes, Group C
new C band markers, C band position variants 380
partial trisomy 8, short arm, resulting from balanced maternal translocation: case report 232
variant in mother of child with Down's syndrome and Dic(21;21): case report 144
tetrasomy 9p (47,XY,+i(9p)), confirmation by enzyme analysis: case report 227
10:46,XX,r(10)(p15→q26): case report 148
11, small pericentric inversion, high resolution 44
11q−, craniosynostosis and syndactyly: case report 480
Chromosomes, Group D
translocation D;G, carriers, higher risk of tdic(13;21) as compared to tdic(14;21): correspondence 491
13, pericentric inversion with two different recombinants in same family 309
13;18 translocation, familial, clinical manifestations 373
13q− syndrome (46,XX,del(13)(q22)/46,XX,r(13)(p13 q22)): case report 316
tertiary partial trisomy 14 in severely retarded 18-year-old boy: case report 230
15;21, translocation, balanced, carriers, dermatoglyphs 301
Chromosomes, Group E
trisomy 18, dermatoglyphs of parents of children with 142
18q+ and 18q− with selective IgA deficiency 453
Chromosomes, Group F
19, pericentric inversion, familial 222
Chromosomes, Group G
simultaneous G and C banding: correspondence 72
Dic(21;21) in Down's syndrome with an unusual chromosome 9 variant in mother: case report 144
trisomy 21, maternal age and origin of non-disjunction 368
21, trisomy mosaicism in two successive generations 48
Cleft lip/palate, epidemiological study, Manitoba 127
Clinical Genetics Society Working Party: The provision of services for the prenatal diagnosis of fetal abnormality in the United Kingdom, 1978, reviewed in 1980 313
Cloning method for identification of carriers, Menkes X linked disease 262
Cohen syndrome, clinical and endocrinological studies of two new cases 430
Colon, multiple polyposis: correspondence 157
Corpus callosum, agenesis, with mosaicism 46,XY/47,XY, extra ring chromosome: case report 59

Prenatal diagnosis
of a de novo non-fluorescent Y chromosome: case report 314
of fetal abnormality, provision of services, UK, report of Working Party, 1978, reviewed in 1980 313
Protrusio acetabuli, primary, in four generations of Italian family: correspondence 404
Proximal femoral focal deficiency associated with Robin anomalad: case report 390
Pyloric stenosis, grandchildren of patients with 411

Question and answer
Is there an association between caudal regression and maternal diabetes? 57
Transmission of haemophilia 476

Robinow 'fetal face' syndrome, similarity with Covesdem syndrome: correspondence 74
Radiation hazards, *see* Radiological protection,
Radiological protection, overall genetic risk assessment for 15
Retinoblastoma
excess of cancer deaths in grandparents of patients with 95
genetic factors, recent views: occasional abstract 386
Review article: Haems and chlorophylls: comparison of function and formation 1
Rigidity, parental factors associated with in Huntington's disease 112
Ring chromosome
4, neurological and neuropathological findings: case report 487
10:46,XX,r(10)(p15→q26): case report 148
(45,X/46,X,r(X)) segregating in two generations 306
Robin anomalad associated with proximal femoral focal deficiency: case report 390

Sardinia, α-thalassaemia in infants 357
Short reports: editorial 409
Sickle cell disease
homozygous, genetic studies, Negro α-thalassaemia 281
in Sicily 34
Skin, congenital absence on limbs, recessive pattern 123
Spina bifida
and anencephalus, family study, Belfast (1964–1968) 203
and anencephalus, risk of recurrence after 2 children with, in high incidence area 87
Syndactyly and craniosynostosis: expanding the 11q− chromosomal deletion phenotype: case report 480

TECHNICAL NOTE
Culture of bloody amniotic fluid for chromosome analysis: an improved method 388
Testicular hypoplasia with 47,XXX baryotype: case report 62
Tetrasomy 9p, confirmation by enzyme analysis: case report 227
Thalassaemia
carriers, screening, in intermediate schools, Latium, 1975–1979 161
Negro, genetic studies in homozygous sickle cell disease 281
probable, and haemoglobin E trait in black American family 285
in Sardinian infants 357
Thumb, duplication, dermatoglyphs 194
Tinea imbricata, susceptibility, genetic inheritance 342

Translocation
inherited, associated with Down's syndrome in the child, estimates of likelihood 273
X;3 associated with gonadal dysgenesis 216
D;G, higher risk of tdic(13;21) as compared to tdic (14;21): correspondence 491
13;18, familial, clinical manifestations 373
15;21, balanced, dermatoglyphs in carriers 301
X;Y, in adolescent mentally normal phenotypic male with features of hypogonadism 437
see also Dicentric
Triphalangeal thumbs, with hypomelanosis of Ito: case report 151
Trisomies
1q partial, de novo duplication 1q32−q42: case report 398
3p partial, syndrome with multiple joint contractures (47,XY,+der(15),t(3;15)(p25;q11): case report 396
8 and 21, with gonadal dysgenesis in 46,XY female mosaic: case report 321
8, partial, of short arm resulting from balanced maternal translocation: case report 232
14, partial, tertiary, severely retarded 18-year-old boy: case report 230
18, dermatoglyphs of parents of children with 142
49,XXXY,+18, liveborn case: case report 389
21, maternal age and origin of non-disjunction 368
mosaicism in two successive generations 48
and 8 with gonadal dysgenesis in 46,XY female mosaic: case report 321
22, partial, complex chromosomal rearrangement leading to: case report 66
Tuberous sclerosis, inheritance: correspondence 325
Turner's syndrome, partial anomalous pulmonary venous drainage in, two patients 133
Twins, monozygotic, discordant for Wiedemann-Beckwith syndrome, genetic counselling implications 136

Yellow mutant albinism and anorexia nervosa, concurrence: case report 68

X linked aqueductal stenosis, prenatal study: correspondence 158
see also Menkes X linked disease

Waardenburg's syndrome: correspondence 243
Weaver syndrome and Marshall syndrome, differentiation 174
Wiedemann-Beckwith syndrome, monozygotic twins discordant for, genetic counselling implications 136
